

EDITING A WORKFLOW STAGE

This guide will cover the process of editing a Workflow Stage in your RIVS account.

1

From the dashboard, select the Requisitions menu.

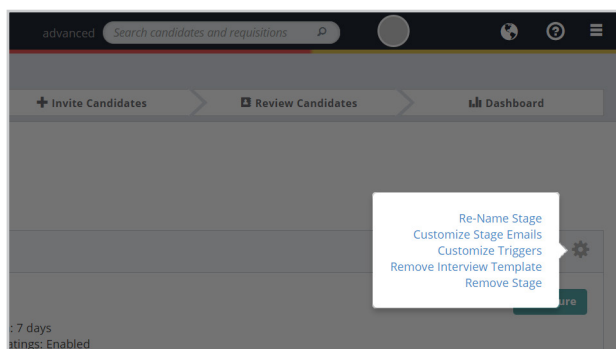

2

Select the requisition containing the workflow you want to edit.

EDITING A WORKFLOW STAGE

3 Select the Workflow tab.

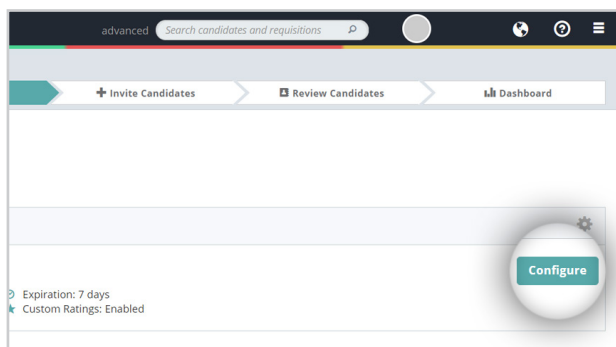

4 On the right side of your screen, you will see a Gear Icon which will allow you to configure the workflow stage. Click on this Gear Icon to make changes, options include:

- **Re-Name Stage** – edit the name of the workflow stage.
- **Customize Stage Emails** – edit email templates that are sent to candidates. Emails are automatically triggered by specific events in the

interview process. This can also be edited by clicking the Configure button.

- **Remove Interview Template** – allows you to remove the interview template associated with the selected workflow stage.
- **Remove Stage** – allows you to delete the selected workflow stage.

5 Click the Configure button to make edits to the workflow stage.

EDITING A WORKFLOW STAGE

Advanced Configuration

Settings

Interview Type: One-way Interview

Internal name: One-Way Interview

External Name: One-Way Interview

Expiration: ☒ Relative Days: 7 Hours: 0 ☐ Absolute Date:

Relative Expiration: A Relative Expiration will automatically set the expiration date for each candidate. Each candidate will have the number of days / hours you have set to complete their responses.

Absolute Expiration: An Absolute Expiration forces all candidates to complete their responses by a specific date. This date will be presented to the candidate during the process.

Customize Emails

6 Under the Settings section, you can edit the interview type, the internal and external names of the workflow stage and the expiration date. Click Save after making any changes.
